## Vote Count

The NEP provides media organizations with real-time vote results in all 50 states for statewide races, ballot initiatives and House races. The NEP vote count from Edison Research is the only service continuously updated after Election Day. We track every vote until results are certified by all states. *The definitive source for accurate, timely and comprehensive election data:

## The survey of record for U.S. elections

Since 2004, The National Election Pool (NEP) and Edison Research have conducted the only national exit polls in the United States. The NEP is the source for projections and analysis for every midterm election, presidential primary and presidential election. Our 2018 general election coverage included exit polls at over 700 voting locations as well as in-person and telephone surveys with absentee and early voters all around the country. Edison's 2020 coverage continues as we prepare for the November General Election.

2/

-This is the BIGGEST Election Scandal & MEGAFRAUD against the [#American](#) Public ever perpetrated! The Polling company who has sole contract FRAUDED the data to send to the MSM, so that [#Trump](#) could not call the election win, & you thought [#Biden](#) won so the polls close, they -->

3/

....then CLOSE the polls in races, people think [#JoeBiden](#) won, candidates concede defeats that NEVER HAPPENED because they think they lost, voters don't go to vote because they think the races are over, and are disenfranchised, swinging races. TOTAL CRIMINAL TREASON & FRAUD!!

4/

-And who is behind it?? [#GatesFoundation!](#) [#Facebook](#) [#Google](#) [#Apple](#) [#Spotify](#) & GLOBALIST Orgs that HATE Trump and are ALL UNDER CRIMINAL INVESTIGATIONS by the [#Trump](#) Administration!! They have RIGGED the election colluding just like Banning his posts and banning [#conservatives!](#)

5/

-"EdisonResearch" has the sole contract to gather exit polling & to FORECAST (MAKE UP) numbers for the votes & have done this for 16 years AT LEAST to give to the [#MSM](#) to then LIE to your face on the TV & the whole thing is RIGGED FRAUDED you are living a LIE sold to you.

6/

-I called "EdisonResearch" to find out who the owners were, voicemail no answer, no such persons are listed on the website. BIG CRIMINAL Tech who is being Investigated & in ANTI-TRUST against the public is doing the biggest Anti-Trust in History, LYING [#ElectionMeddling](#) YOU

7/

-This is BEYOND FEDERAL CRIME, this is Direct TREASON, this is Direct & TOTAL Election Meddling to influence EVERY LAST VOTER & Even the Candidates! This is ELECTION RIGGING on Scale Never seen in [#American](#) History!!

The MSM Complicit in LYING & Hiding the truth from you!!

8/

-This is the biggest story I have ever seen in YEARS, BIGGER than [#COVID19](#), the [#American](#) Elections RIGGED COMPLETELY the ENTIRE News Feed Data Systems, Reporting of who is winning, FAKED NUMBERS told to all & pretended they are real, MILLIONS of votes ahead per state, HIDING!

9/

-This is THE MEGASTORY of 2020. They RIGGED the Election LYING TO EVERYONES FACE. RIGGED FRAUDED LIED about ALL the election data! They even called ENTIRE STATES based on this FRAUDED Data HOURS EARLY!!  
[#California](#) [#Oregon](#) [#Washington](#) Based on TOTAL LIES from this CRIME Racket

10/

There MUST be Widespread CRIMINAL investigations & interrogations IMMEDIATELY into everyone in this company & all those who participated in hiring them & at EVERY one of the MSM companies who dealt with them & the data streams to get full transcripts & statements of this work

11/

-[#CBS](#) says the numbers you are told by [#MSM](#) ARE NOT REAL. They are supposed to be from the counties but they LIED TO YOUR FACE. They are 100% FRAUDED & off by MILLIONS claiming [#JoeBiden](#) won when [#Trump](#) was WAY AHEAD. They did this to FAKE a look like the election is close!

12/

Theres no evidence that ANY exit polling was even conducted and it was not an entire fabrication. They certainly did NOT pull the data from the counties as data from counties are completely different from what theyre reporting. They did NOT report that theyve done exit polls

An advertisement for a software solution. The background is a dark, abstract image. On the left, the text "Revolutionize the way you manage expense reporting" is displayed in white. Below this text is a blue button with the text "REQUEST DEMO". To the right of the text is a white tablet displaying a software interface with various charts and data. A white play button icon is positioned to the right of the tablet. At the bottom of the advertisement is a large blue button with the text "OPEN".

13/

This is likely a complete & total fabrication made up to make it look like Biden won, fool everyone so they don't look into, and stick frauded extra ballots in to make it up to those numbers or get #Biden the win. Biden said they have the most complex Voter Fraud Org ever built

14/

Some states like Wisconsin state it can take them weeks to fully count all their data from counties reporting. But the MSM has already added OVER a MILLION Extra votes magically from nowhere that don't even exist yet!! They LIED TO YOU and you thought it was real data! CRIME!

15/

Here you can see the #NYT & #AP are merely REPEATING whatever Edison sends to them, PAID FOR by #BillGates & Big Tech according to their own website! AP said the data was WRONG so I looked into Edison to find out who's behind it. KABOOOOM! Big Tech & Gates Foundation!

### Trump Pursues Legal Challenges as His Path to Victory Narrows

- With wins in the two key swing states, Joe Biden's slim leads elsewhere could propel him to the presidency, if they hold.
- In a speech, Mr. Biden said it was "clear" that he would reach 270 electoral votes and win the election, though he stopped short of claiming victory.
- President Trump's campaign said it would seek a recount in Wisconsin and that it had filed a lawsuit seeking to halt Michigan's count. Here's the latest.

## Race Projections – More data and faster results means timely projections and analysis

Exit polls provide a preview of the important stories on election night, and early exit poll results are available to subscribers at 5pm Eastern. In 2018, the NEP's 5pm Eastern exit poll estimates provided an accurate picture of the key stories of election night. The NEP estimated that the national House popular vote margin in 2018 for the Democrats at 5pm was 10 points, closely matching the final margin of 8.6 points.

For the 2020 General Election, race projections will be made in all 50 states for statewide races, ballot measures, as well as all 435 House races.

28/

They said "There will be LESS exit polling data due COVID" So they ADMITTED that they will NOT have very much exit polling data so they have to rely on GUESSING, on MAKING IT UP themselves. Many ppl filmed their polling stations & VERY FEW Dems at polls, so how the HUGE VOTE?

29/

They said "15:00+ NO Results or data will be given until the Polls close" THEY LIED!! They reported through data to the [#MSM](#) continually through the day, UNLESS the MSM Coordinated in a Cartel among themselves to LIE, but NYT & AP fingered them & said got the data from Edison

12/ One of the best things out of @ericries's Lean Startup is the concept of "vanity metrics" - unimportant, inflated metrics that don't have much to do with business value. But the effects of using them are different when you're a startup versus a big co.

#Breaking #BreakingNews 🚨🚨🚨 CAUGHT ELECTION FRAUDING. When 99% counted #Trump was 75k ahead. At 99.11% They added 300k for #Biden. There's only 230K voters in county. 0.11% of 100 is only 37k not 300k. Now they claim there was an error of 100k too many, but that's 474k voters.

If Trump got 162K, it's over 50% of the eligible voters & IMPOSSIBLE for Biden to win. They only have to pull all the data & the Democrats are going to PRISON for a very long time on this one according to what I'm seeing here. @FBI @trumpteam01 @JudiciaryGOP @GOP @WhiteHouse

This is my Thread to TEACH you all about “The Central Bank CryptoCurrency” issue. It’s not all simple like some are saying... 1. There is no quality reliable secure digital currency yet, not even Bitcoin is secure & the others aren’t Bank grade security either yet.

2. Even IF there was, it would have to be bank grade which means no different than cash in bank accounts just a different ledger. The banking ledger now is theirs Already. 3. The corrupt deepstate cant launder like Biden as easy on cryptos. Its not ideal 4 them & more public

4. There are many problems with cryptos currently. Its NOT safe like the crypto liars claim it is. There is in fact zero security or recovery of your \$ if you lose your password. Pushy money. Unrecoverable with no insurance. Also buys force banks can get your
